## Message from Mrs Gable

It has been such a whirl of tinsel and glitter in the run up to Christmas that it is hard to think back to the warm days of late summer when the term started. Our children have been making their teachers proud each day with their achievements, however small. We have introduced our new Horizons Curriculum with exciting modern new topics, opportunities for learning outdoors have increased and debates have been taking place in all year groups as our Golden Threads weave through. We finish the term with such positivity that I would like to thank all the staff at Bonneygrove for making our school a very special place to learn. It just remains for me to wish all of you and your families a very happy Christmas and a peaceful New Year. We look forward to welcoming you back in 2020. **Amanda Gable**

As part of their Design and Technology unit, Heron Class have been busy being bakers and making bread rolls from scratch. They had a marvellous time learning how to mix and then shape the ingredients into bread rolls (check out the elephant and Minnie Mouse rolls!). They all went home with two delicious bread rolls and huge, proud smiles on their faces.

During class assembly, on the day of the general election, Year 6 were shown a summary of the manifestos from the main political parties. At the end of the assembly, the children took part in a vote to see which political party they would elect. Their results were vastly different to the real election!

Green Party 42%  
Labour 26%  
Conservative 13%  
Lib Dems 9%  
Brexit 9%

One of our pupils, Clayton in Year 5 has done a fantastic job of fundraising for the Juvenile Diabetes Research Foundation Ltd. Clayton ran a fundraising stall at our Christmas Fayre and raised an amazing total of £110.00!

Well done Clayton! Please see attached letter on our website that has more details in regards to donating.

We still have an outstanding prize on:

Blue Ticket (AG654545)

No: 328

Year 4 have loved learning about sound this term, our exploration in science has led us to creating our own instruments using recycling products from home.

We knew that vibrations create sound and implemented this knowledge into an orchestra like performance.  
Can you spot the recycling that we've used?
